***Discussion:***

The City of Independence in collaboration with the City of Greenfield and the Department of Natural Resources established an ordinance to address no wakes on Lake Sarah in 2015. There are several provisions of the ordinance relating to the removal of the “no wake” status that should be further reviewed and possibly amended.

Council can direct staff to begin working on a revision to the ordinance to address the removal of the no wake status. Coordination will be required with the City of Greenfield and the Department of Natural Resources.
